SUMMARY

Software Engineering student and Junior Full-Stack Developer specializing in Next.js and React, with internship experience and deployed projects including an AI interview platform and an e-commerce platform. Skilled in both front-end and back-end development, with a focus on creating seamless user experiences. Passionate about learning and applying modern technologies to solve challenges.

EDUCATION

Jimma University **Feb 2023 - Jun 2027**
B.Sc. in Software Engineering *Expected Jun 2027*

Evangadi Networks **Apr 2024 - Oct 2024**
Full-Stack Web Development Boot Camp *Remote*

- Built and enhanced full-stack applications using React for the front end.
- Integrated RESTful APIs and managed state efficiently to ensure smooth data flow and real-time updates across the application.

SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Redux
Backend: Node.js, Express, REST APIs, JWT Authentication
Databases: MySQL, PostgreSQL, MongoDB, Prisma
Tools: Git, GitHub, Jira

WORK EXPERIENCE

Debo Engineering **Dec 2024 - Present**
Full-Stack Developer Intern *Ethiopia*

- Developed full-stack web apps using Next.js, React, Node.js, Express, and MySQL.
- Built responsive UIs with React & Next.js and integrated RESTful APIs with Node.js/Express.

Information Network Security Agency (INSA) **Jul 2025 - Oct 2025**
Full-Stack Developer Intern *Ethiopia (Hybrid)*

- Built a secure full-stack web application (Next.js, Node.js, MySQL) in collaboration with a partner, applying core security principles.
- Implemented authentication and basic security measures to protect application data.
- Ethio Gard: Built core features of a web application, preparing the project for future security enhancements.

Carmatic **Oct 2025 - Nov 2025**
Front-End Developer *Remote (Romania)*

- Worked in a remote team following a real development workflow, using Jira for task tracking and attending regular team meetings.
- Developed and enhanced web application features while following clean code and best development practices.
- Collaborated with team members to debug issues and improve functionality and performance.

Faulcon Enterprise LLC **Jul 2025**
Front-End Developer (Contract) *Remote (USA)*

- Optimized an existing codebase and improved UI/UX using Next.js and Tailwind CSS.

PROJECTS

Evka - AI Interview Marketplace **2026 - Present**
Next.js, React, Prisma, PostgreSQL, Clerk, Stream, Google Gemini GitHub | Live Demo

- Built a full-stack marketplace where candidates book HD video mock interviews with professional interviewers using a credit-based plan system, with interviewer payout requests and admin approval.
- Integrated Google Gemini to generate live interview questions and produce post-session AI feedback reports (technical, communication and problem-solving scores) from call transcripts.
- Secured the platform with Clerk role-based authentication, HMAC-verified Stream webhooks, Arcjet bot protection and rate limiting.

TF Wood Works - Furniture Ordering Platform **2026 - Present**
Next.js, TypeScript, Node.js, Express, Prisma, PostgreSQL (Supabase) GitHub | Live Demo

- Built an e-commerce storefront for a furniture business where customers browse, filter and order by name and phone number with no account required.
- Developed a REST API with Express and TypeScript, using JWT and bcrypt for role-based admin authentication, plus an admin dashboard for furniture CRUD, order status management and order notifications.
